Forward-Looking Statements

This presentation contains, and certain oral and written statements made by our representatives from time to time may contain, forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including, without limitation, statements made regarding the ability of Spectrum Brands Holdings, Inc. (and together with its subsidiaries, the “Company”, “us”, “we” or “our”) to meet its future financial expectations or guidance, product innovation or other business investment initiatives and the Company’s share repurchase program, for which the manner of purchase, the number of shares to be purchased and the timing of purchases will be based on a number of factor including the price of the Company’s common stock, general business and market conditions and applicable legal requirements, and is subject to the discretion of the Company’s management and may be discontinued at any time. We have tried, whenever possible, to identify these statements by using words like “future,” “anticipate,” “intend,” “plan,” “estimate,” “believe,” “belief,” “expect,” “project,” “forecast,” “could,” “would,” “should,” “will,” “may,” and similar expressions of future intent or the negative of such terms. These statements are subject to a number of risks and uncertainties that could cause results to differ materially from those anticipated as of the date of this presentation. Actual results may differ materially as a result of (1) the impact of our indebtedness on our business, financial condition and results of operations; (2) the impact of restrictions in our debt instruments on our ability to operate our business, finance our capital needs or pursue or expand business strategies; (3) any failure to comply with financial covenants and other provisions and restrictions of our debt instruments; (4) the impact of actions taken by significant stockholders; (5) the impact of fluctuations in commodity prices, costs or availability of raw materials or terms and conditions available from suppliers, including suppliers’ willingness to advance credit; (6) interest rate and exchange rate fluctuations; (7) the loss of significant reduction in, or dependence upon, sales to any significant retail customer(s); (8) competitive promotional activity or spending by us or our competitors, or price reductions by us or our competitors; (9) the introduction of new product features or technological developments by competitors and/or the development of new competitors or competitive brands; (10) the effects of general economic conditions, including inflation, recession or fears of a recession, depression or fears of a depression, labor costs and stock market volatility or changes in trade, tariff, monetary or fiscal policies in the countries where we do business; (11) changes in consumer spending preferences and demand for our products; (12) our ability to develop and successfully introduce new products, protect our intellectual property and avoid infringing the intellectual property of third parties; (13) our ability to successfully implement, achieve and sustain manufacturing and distribution cost efficiencies and improvements, and fully realize anticipated cost savings; (14) the seasonal nature of sales of certain of our products; (15) the effects of climate change and unusual weather activity; (16) the cost and effect of unanticipated legal, tax or regulatory proceedings or new laws or regulations (including environmental, public health and consumer protection regulations); (17) public perception regarding the safety of products that we manufacture and sell, including the potential for environmental liabilities, product liability claims, litigation and other claims related to products manufactured by us and third parties; (18) the impact of pending or threatened litigation; (19) the impact of cybersecurity breaches or our actual or perceived failure to protect company and personal data; (20) changes in accounting policies applicable to our business; (21) our ability to utilize net operating loss carry-forwards to offset tax liabilities from future taxable income; (22) government regulations; (23) the impact of expenses resulting from the implementation of new business strategies, divestitures or current and proposed restructuring activities; (24) our inability to successfully integrate and operate new acquisitions at the level of financial performance anticipated; (25) the unanticipated loss of key members of senior management; (26) the effects of political or economic conditions, terrorist attacks, acts of war or other unrest in international markets; and (27) the other risk factors set forth in our securities filings, including the most recently filed Annual Report on Form 10-K and any Quarterly Reports on Form 10-Q filed thereafter.

We also caution the reader that undue reliance should not be placed on any forward-looking statements, which speak only as of the date of this presentation. We undertake no duty or responsibility to update any of these forward-looking statements to reflect events or circumstances after the date of this presentation or to reflect actual outcomes. Additional factors that may affect future results and conditions are described in our filings with the SEC, which are available at the SEC’s web site at www.sec.gov or at Spectrum Brands’ website at www.spectrumbrands.com.

The information contained in this presentation is summary information that is intended to be considered in the context of our SEC filings, and other public announcements that we may make, by press release or otherwise, from time to time. In addition, information related to past performance, while helpful as an evaluative tool, is not necessarily indicative of future results, the achievement of which cannot be assured. You should not view our past performance, or information about the market, as indicative of our future results. Further, performance information respecting investment returns on portfolio transactions is not directly equivalent to returns on an investment in our common stock.

Reconciliation of Non-GAAP Financial Measurements

Management believes that certain non-GAAP financial measures may be useful in certain instances to provide additional meaningful comparisons between current results and results in prior operating periods. Management believes that organic net sales provide for a more complete understanding of underlying business trends of regional and segment performance by excluding the impact of currency exchange rate fluctuations and the impact of acquisitions. In addition, within this release, including the supplemental information attached hereto, reference is made to adjusted diluted EPS, adjusted earnings before interest, taxes, depreciation and amortization (EBITDA), and adjusted EBITDA margin. Adjusted EBITDA is a metric used by management to evaluate segment performance and frequently used by the financial community which provides insight into an organization's operating trends and facilitates comparisons between peer companies, since interest, taxes, depreciation and amortization can differ greatly between organizations as a result of differing capital structures and tax strategies. Adjusted EBITDA also is one of the measures used for determining compliance with the Company's debt covenants. Adjusted EBITDA excludes certain items that are unusual in nature or not comparable from period to period. Adjusted EBITDA margin reflects adjusted EBITDA as a percentage of net sales of the Company. Organic adjusted EBITDA excludes the impact of currency exchange rate fluctuations and acquisitions. The Company's management uses adjusted diluted EPS as one means of analyzing the Company's current and future financial performance and identifying trends in its financial condition and results of operations. Management believes that adjusted diluted EPS is a useful measure for providing further insight into our operating performance because it eliminates the effects of certain items that are not comparable from one period to the next. An income tax adjustment is included in adjusted diluted EPS to exclude the impact of the valuation allowance against deferred taxes and other tax-related items in order to reflect a normalized ongoing effective tax rate. The Company provides this information to investors to assist in comparisons of past, present and future operating results and to assist in highlighting the results of on-going operations. While the Company's management believes that non-GAAP measurements are useful supplemental information, such adjusted results are not intended to replace the Company's GAAP financial results and should be read in conjunction with those GAAP results. Other Supplemental Information has been provided to demonstrate reconciliation of non-GAAP measurements discussed above to most relevant GAAP financial measurements.

Spectrum Brands provides this information to investors to assist in comparisons of past, present and future operating results and to assist in highlighting the results of on-going operations. While Spectrum Brands' management believes that non-GAAP measurements are useful supplemental information, such adjusted results are not intended to replace the Spectrum Brands' GAAP financial results and should be read in conjunction with those GAAP results.

All GAAP reconciliations are available at www.spectrumbrands.com

Q2 2019 Overview

Q2 2019 Financials

Net Sales

\$906.7 million

2.7% increase

Adjusted EBITDA

\$115.6 million

0.3% decrease

- **Q2 results were in line with our expectations**
 - **All four business units delivered organic growth**
- **Adjusted EBITDA was flat** with last year, and right on our first half plan
- We are on our way to building the **faster, smarter, stronger Spectrum Brands** of the future
- In Q2, we rapidly **paid down \$2.4 billion of debt** while **returning \$250 million to shareholders** through share repurchase; we will also return about \$86 million this year in the form of dividends

Hardware & Home Improvement Q2 2019 Overview

HHI Q2 Financials

Net Sales

\$331.1 million

4.0% increase

Adjusted EBITDA

\$52.7 million

15.8% increase

- **4% reported net sales growth was broad-based** across residential security, plumbing and builders' hardware
- **Adjusted EBITDA grew 16%** from higher volumes, productivity improvements and expense controls
- HHI sees continued growth in its electronic deadbolt and smart lock product lines

HPC Q2 2019 Overview

HPC Q2 Financials

Net Sales

\$221.7 million

4.1% decrease

Adjusted EBITDA

\$4.5 million

77.6% decrease

- Net sales fell 4%, while **organic sales grew 1%**
- **Decreases in adjusted EBITDA and margin** were mainly attributable to lower gross margin from reduced personal care volumes, unfavorable product mix, transaction foreign exchange, and higher input-related costs, as well as increased marketing investments

Pet Care Q2 2019 Overview

Pet Care Q2 Financials

Net Sales

\$214.9 million

1.8% increase

Adjusted EBITDA

\$32.8 million

8.1% decrease

- Building on solid Q1 top-line growth, **Q2 reported net sales increased 2%**
- **Double-digit improvement in U.S. companion animal revenues**, primarily dog chews and treats
- **Adjusted EBITDA fell 8%** with a 160 basis point margin decline to 15.3% as a result of higher manufacturing and distribution costs

Home & Garden Q2 2019 Overview

H&G Q2 2019 Financials

Net Sales

\$139.0 million

14.1% increase

Adjusted EBITDA

\$29.6 million

17.0% increase

- 14% net sales increase was attributable to **double-digit growth in outdoor control category**
- **Distribution wins, strong early season home center orders, and generally more favorable weather** than last year drove the category's growth
- Adjusted EBITDA increased 17% and margin expanded 50 basis points to 21.3% on the strength of improved manufacturing efficiencies from higher volumes and select pricing actions
