Part I. Item 1., Financial Statements. The Financial Statements are hereby amended to delete Note 5 and replace it with the following:

5 OTHER

During the 1998 Fiscal First Quarter, the Company recorded a pre-tax credit of \$1.2 million related to the buyout of deferred compensation agreements with certain former employees.

On November 28, 1997 the Company acquired Brisco G.M.B.H. in Germany and Brisco B.V. in Holland, a distributor of hearing aid batteries for \$4.9 million. Brisco recorded calendar 1996 sales of \$4.5 million.

During the year ended September 30, 1997, the Company recorded special charges as follows: (i) \$2.5 million of charges related to the exit by early fiscal 1998 of certain manufacturing and distribution operations at the Company's Kinston, North Carolina facility, which amount includes \$1.1 million of employee termination benefits for 137 employees, (ii) \$1.4 million of employee termination benefits for 71 employees related to organizational restructuring in Europe and the exit of certain manufacturing operations in the Company's Newton Aycliffe, United Kingdom facility which the Company expects to complete in fiscal 1998, (iii) \$2.0 million of charges for employee termination benefits for 77 employees related to organizational restructuring in the United States which the Company expects to complete in fiscal 1998. The number of employees anticipated to be terminated was approximately equal to the actual numbers referenced above. The charges were partially offset by a \$2.9 million gain related to the curtailment of the Company's defined benefit pension plan

covering all domestic non-union employees. A summary of the restructuring activities follows.

Part I. Item 2., Management's Discussion and Analysis of Financial Condition and Results of Operations. Management's Discussion and Analysis of Financial Condition and Results of Operations is hereby amended by deleting the first paragraph under the caption Liquidity and Capital Resources and inserting in lieu thereof the following:

For the three months ended December 27, 1997, approximately \$1.7 million of net cash was provided by income from operations partially offset by a seasonal increase in receivables. This compares to \$20.5 million of net cash provided by operating activities in the 1997 Fiscal Quarter which was due primarily to inventory reductions. Costs associated with the 1997 restructuring initiatives were funded from cash provided from operating activities.

1 SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: These financial statements have been prepared by Rayovac Corporation (the "Company"), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC") and, in the opinion of the Company, include all adjustments (all of which are normal and recurring in nature) necessary to present fairly the financial position of the Company at December 27, 1997, results of operations for the three month periods ended December 27, 1997 and December 28, 1996, and cash flows for the three month periods ended December 27, 1997 and December 28, 1996. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such SEC rules and regulations.

These condensed consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto as of September 30, 1997.

Derivative Financial Instruments: Derivative financial instruments are used by the Company principally in the management of its interest rate, foreign currency and raw material price exposures.

The Company uses interest rate swaps to manage its interest rate risk. The net amounts to be paid or received under interest rate swap agreements designated as hedges are accrued as interest rates change and are recognized over the life of the swap agreements, as an adjustment to interest expense from the underlying debt to which the swap is designated. The related amounts payable to, or receivable from, the counter-parties are included in accrued liabilities or accounts receivable. The Company has entered into an interest rate swap agreement which effectively fixes the interest rate on floating rate debt at a rate of 6.16% for a notional principal amount of \$62,500 through October 1999. The fair value of this contract at December 27, 1997 is (\$371).

The Company has entered into a cross currency interest rate swap agreement related to financing the Brisco acquisition. The agreement effectively fixes the interest and foreign exchange on floating rate debt denominated in U.S. Dollars at a rate of 5.34% denominated in German Marks. The notional principal amount is approximately \$5,000. The fair value at December 27, 1997 approximated the contract value.

The Company enters into forward foreign exchange contracts relating to the anticipated settlement in local currencies of intercompany purchases and sales. These contracts generally require the Company to exchange foreign currencies for U.S. dollars. The contracts are marked to market and the related adjustment is recognized in other expense (income). The related amounts payable to, or receivable from, the counter-parties are included in accounts payable, or accounts receivable. The Company has approximately \$5,300 of forward exchange contracts at December 27, 1997. The fair value at December 27, 1997, approximated the contract value.

The Company is exposed to risk from fluctuating prices for commodities used in the manufacturing process. The Company hedges some of this risk through the use of commodity swaps, calls and puts. The Company has entered into commodity swap agreements which effectively fix the floating price on a specified quantity of zinc through a specified date. The Company is buying calls, which allow the Company to purchase a specified quantity of zinc through a specified date for a fixed price, and writing puts, which allow the buyer to sell to the Company a specified quantity of zinc through a specified date at a fixed price. The maturity of, and the quantities covered by, the contracts highly correlate to the Company's anticipated

4 COMMITMENTS AND CONTINGENCIES

The Company has entered into agreements to purchase certain equipment and to pay annual royalties. In a December 1991 agreement, the Company committed to pay annual royalties of \$1.5 million for the first five years, beginning in 1993, plus \$0.5 million for each year thereafter, as long as the related equipment patents are enforceable (2012). In a March 1994 agreement, the Company committed to pay \$0.5 million in 1994 and annual royalties of \$0.5 million for five years beginning in 1995. Additionally, the Company has committed to purchase tooling of \$0.8 million related to this equipment.

The Company has provided for the estimated costs associated with environmental remediation activities at some of its current and former manufacturing sites. In addition, the Company, together with other parties, has been designated a potentially responsible party of various third-party sites on the United States EPA National Priorities List (Superfund). The Company provides for the estimated costs of investigation and remediation of these sites when such losses are probable and the amounts can be reasonably estimated. The actual cost incurred may vary from these estimates due to the inherent uncertainties involved. The Company believes that any additional liability in excess of the amounts provided of \$1.8 million, which may result from resolution of these matters, will not have a material adverse effect on the financial condition, liquidity, or cash flows of the Company.

5 OTHER

During the 1998 Fiscal First Quarter, the Company recorded a pre-tax credit of \$1.2 million related to the buyout of deferred compensation agreements with certain former employees.

On November 28, 1997 the Company acquired Brisco G.M.B.H. in Germany and Brisco B.V. in Holland, a distributor of hearing aid batteries for \$4.9 million. Brisco recorded calendar 1996 sales of \$4.5 million.

During the year ended September 30, 1997, the Company recorded special charges as follows: (i) \$2.5 million of charges related to the exit by early fiscal 1998 of certain manufacturing and distribution operations at the Company's Kinston, North Carolina facility, which amount includes \$1.1 million of employee termination benefits for 137 employees, (ii) \$1.4 million of employee termination benefits for 71 employees related to organizational restructuring in Europe and the exit of certain manufacturing operations in the Company's Newton Aycliffe, United Kingdom facility which the Company expects to complete in fiscal 1998, (iii) \$2.0 million of charges for employee termination benefits for 77 employees related to organizational restructuring in the United States which the Company expects to complete in fiscal 1998. The number of employees anticipated to be terminated was approximately equal to the actual numbers referenced above. The charges were partially offset by a \$2.9 million gain related to the curtailment of the Company's defined benefit pension plan covering all domestic non-union employees. A summary of the restructuring activities follows.

6 GUARANTOR SUBSIDIARY

The following condensed consolidating financial data illustrates the composition of the consolidated financial statements. Investments in subsidiaries are accounted for by the Company and the Guarantor Subsidiary using the equity method for purposes of the consolidating presentation. Earnings of subsidiaries are therefore reflected in the Company's and Guarantor Subsidiary's investment accounts and earnings. The principal elimination entries eliminate investments in subsidiaries and inter-company balances and transactions. Separate financial statements of the Guarantor

Subsidiary are not presented because management has determined that such financial statements would not be material to investors.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Three Months Ended December 27, 1997 Compared to
Three Months Ended December 28, 1996

Management's Discussion and Analysis of Financial Condition and Results of Operations, with the exception of historical matters, contains forward-looking statements (such as statements including the terms "believe," "expect," "anticipate," and similar concepts) which involve risks and uncertainties. Actual results may differ materially from these statements as a result of various factors, including those discussed herein.

Net Sales. The net sales of Rayovac Corporation (the "Company") were \$150.0 million in the three months ended December 27, 1997, (the "1998 Fiscal Quarter"), an increase of \$8.1 million, or 5.7%, from approximately \$141.9 million in the three months ended December 28, 1996 (the "1997 Fiscal Quarter"), primarily due to increased sales of general battery products somewhat offset by decreased sales of lighting products. During the 1998 Fiscal Quarter, the Company's net sales included \$0.7 million of hearing aid battery sales related to the November, 1997, acquisition of Brisco, a distributor in Germany and Holland.

Within general batteries, alkaline battery dollar sales exceeded the 1997 Fiscal Quarter by approximately 19% due primarily to strong promotional programs during the Christmas season, a price increase implemented last summer, and sales to new customers. This was partially offset by decreased sales of heavy duty batteries attributed to reduced promotional activity and the continuing decline in the domestic market.

Sales of lighting products were unfavorably impacted as several seasonal promotions in the prior year were not repeated in 1997.

Gross Profit. Gross profit increased \$9.7 million, or 15.4%, to approximately \$72.6 million in the 1998 Fiscal Quarter, from approximately \$62.9 million in the 1997 Fiscal Quarter, primarily as a result of increased sales of alkaline batteries. Gross profit increased as a percentage of net sales to 48.4% in the 1998 Fiscal Quarter from 44.3% in the 1997 Fiscal Quarter which is due primarily to a shift toward higher margin alkaline sales. Margins also benefited from the price increase implemented in mid-1997.

Selling Expense. Selling expense increased \$6.8 million, or 17.6%, to approximately \$45.5 million in the 1998 Fiscal Quarter from approximately \$38.7 million in the 1997 Fiscal Quarter. Selling expense increased as a percentage of net sales to 30.3% in the 1998 Fiscal Quarter from 27.3% in the 1997 Fiscal Quarter primarily as a result of increased advertising and promotional spending.

General and Administrative Expense. General and administrative expense increased \$0.7 million, or 9.2%, to approximately \$8.3 million in the 1998 Fiscal Quarter from approximately \$7.6 million in the 1997 Fiscal Quarter, primarily due to higher costs associated with information system improvements worldwide.

Research and Development Expense. Research and development expense decreased \$0.4 million to approximately \$1.5 million in the 1998 Fiscal Quarter from approximately \$1.9 million in the 1997 Fiscal Quarter. This decrease was primarily a result of the increased resources assigned in the 1997 Fiscal Quarter to the development of an on-the-label battery tester which management decided not to implement in production.

Other Special Charges and Income. In the 1998 Fiscal Quarter, the Company recorded additional income of approximately \$1.2 million in connection with the buyout of deferred compensation agreements with certain former employees. In the 1997 Fiscal Quarter, the Company recorded charges of approximately \$3.0 million in connection with an organizational restructuring in the United States and the discontinuation of certain manufacturing operations in the United Kingdom.

Income from Operations. Income from operations increased \$6.9 million or 59.0% to approximately \$18.6 million in the 1998 Fiscal Quarter from approximately \$11.7 million in the 1997 Fiscal Quarter due primarily to increased gross profit on the increased net sales discussed above which was partially offset by increased operating expenses in the areas of advertising and promotion expense.

Interest Expense. Interest expense in the 1998 Fiscal Quarter decreased \$3.0 million, or 37.5%, to approximately \$5.0 million from approximately \$8.0 million in the 1997 Fiscal Quarter primarily as a result of decreased indebtedness due to the application of the proceeds of the Company's initial public offering of common stock completed in November 1997 (the "IPO"), and the write-off, in the 1997 Fiscal Quarter, of \$2.0 million of unamortized debt issuance costs.

Extraordinary Item. In the 1998 Fiscal Quarter the Company recorded extraordinary expense of \$2.0 million net of income taxes for the premium on the repurchase or redemption of the senior term notes in connection with the IPO.

Net Income. Net income for the 1998 Fiscal Quarter increased \$4.2 million, or 175.0%, to approximately \$6.6 million from approximately \$2.4 million in the 1997 Fiscal Quarter as discussed above. Diluted earnings per share for the 1998 Fiscal Quarter increased 15 cents per share to 26 cents per share. The Company's effective tax rate for the 1998 Fiscal Quarter was 38.2% compared to 36.7% for the 1997 Fiscal Quarter due primarily to increased foreign taxes for the 1998 Fiscal Quarter that are subject to foreign tax credit limitations.

Liquidity and Capital Resources

For the three months ended December 27, 1997, approximately \$1.7 million of net cash was provided by income from operations partially offset by a seasonal increase in receivables. This compares to \$20.5 million of net cash provided by operating activities in the 1997 Fiscal Quarter which was due primarily to inventory reductions. Costs associated with the 1997 restructuring initiatives were funded from cash provided from operating activities.

Capital expenditures during the three months ended December 27, 1997, were approximately \$1.8 million, an increase of \$0.7 million from approximately \$1.1 million in the 1997 Fiscal Quarter reflecting maintenance level spending.

The Company currently expects an increase in capital expenditures to approximately \$18.0 million in fiscal 1998 due to alkaline capacity expansion, alkaline vertical integration programs, and continued spending on new computer information systems. The Company believes that cash flow from operating activities and periodic borrowings under its existing credit facilities will be adequate to meet the Company's short-term and long-term liquidity requirements prior to the maturity of those credit facilities, although no assurance can be given in this regard. The Company's credit facilities include a revolving credit facility of \$65.0 million of which no amounts were borrowed at December 27, 1997, and approximately \$0.6 million of which was utilized for outstanding letters of credit.

Subsequent Event - Amended Credit Agreement

On December 30, 1997, the Credit Agreement dated September 12, 1996, was amended. The Amended Credit Agreement provides for more favorable borrowing costs and covenants consistent with the Company's improved credit position resulting from the paydown of debt with the net proceeds of the IPO. The Amended Credit Agreement includes a five-year reducing Revolver Facility of \$90.0 million and a five-year amortizing Acquisition Facility of \$70.0 million. The Revolver Facility is reduced by \$10.0, \$15.0, and \$15.0 million respectively on December 31, 1999, 2000 and 2001 and expires on December 31, 2002. The Acquisition Facility provides up to \$70.0 million in loans for qualifying acquisitions during a one-year commitment period expiring December 31, 1998. Debt obtained under the Acquisition Facility is subject to quarterly amortization commencing March 31, 1999 through December 31, 2002. As of December 30, 1997, all of the Company's senior subordinated term debt was replaced by revolver debt under the Revolver Facility.
