Forward-Looking Statements

We have made or implied certain forward-looking statements in this document and may make additional oral forward-looking statements from time to time. All statements, other than statements of historical facts included or incorporated by reference in this document, including the statements under Management's Discussion and Analysis of Financial Condition and Results of Operations, without limitation, statements or expectations regarding our business strategy, future operations, financial condition, estimated revenues, projected costs, inventory management, earnings power, projected synergies, prospects, plans and objectives of management, outcome of any litigation and information concerning expected actions of third parties are forward-looking statements. When used in this report, the words future, anticipate, pro forma, seek, intend, plan, envision, estimate, believe, belief, expect, project, forecast, outlook, earnings framework, goal, target, could, would, will, can, should, may and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such identifying words.

Since these forward-looking statements are based upon our current expectations of future events and projections and are subject to a number of risks and uncertainties, many of which are beyond our control and some of which may change rapidly, actual results or outcomes may differ materially from those expressed or implied herein, and you should not place undue reliance on these statements. Important factors that could cause our actual results to differ materially from those expressed or implied herein include, without limitation:

- the economic, social and political conditions or civil unrest, terrorist attacks, acts of war, natural disasters, other public health concerns or unrest in the United States ("U.S.") or the international markets impacting our business, customers, employees (including our ability to retain and attract key personnel), manufacturing facilities, suppliers, capital markets, financial condition and results of operations, all of which tend to aggravate the other risks and uncertainties we face;
- the impact of a number of local, regional and global uncertainties could negatively impact our business;
- the negative effect of the Russia-Ukraine war and the Israel-Hamas war and their impact on those regions and surrounding regions, including the Middle East, and on our operations and those operations of our customers, suppliers and other stakeholders;
- · our increased reliance on third-party partners, suppliers and distributors to achieve our business objectives;
- the impact of expenses resulting from the implementation of new business strategies, divestitures or current and proposed restructuring and optimization activities, including changes in inventory and distribution center changes which are complicated and involve coordination among a number of stakeholders, including our suppliers and transportation and logistics handlers;
- the impact of our indebtedness and financial leverage position on our business, financial condition and results of operations;
- · the impact of restrictions in our debt instruments on our ability to operate our business, finance our capital needs or pursue or expand business strategies;
- any failure to comply with financial covenants and other provisions and restrictions of our debt instruments;
- the effects of general economic conditions, including the impact of, and changes to tariffs and trade policies, inflation, recession or fears of a recession, depression or fears of a depression, labor costs and stock market volatility or monetary or fiscal policies in the countries where we do business;
- the impact of fluctuations in transportation and shipment costs, fuel costs, commodity prices, costs or availability of raw materials or terms and conditions available from suppliers, including suppliers' willingness to advance credit;
- · interest rate fluctuations;
- · changes in foreign currency exchange rates that may impact our purchasing power, pricing and margin realization within international jurisdictions;
- · the loss of, significant reduction in or dependence upon, sales to any significant retail customer(s), including their changes in retail inventory levels and management thereof;
- competitive promotional activity or spending by competitors, or price reductions by competitors;
- the introduction of new product features or technological developments by competitors and/or the development of new competitors or competitive brands;
- · changes in consumer spending preferences and demand for our products, particularly in light of economic stress and the COVID-19 pandemic;
- · our ability to develop and successfully introduce new products, protect intellectual property and avoid infringing the intellectual property of third parties;
- our ability to successfully identify, implement, achieve and sustain productivity improvements, cost efficiencies (including at our manufacturing and distribution operations) and cost savings;
- the seasonal nature of sales of certain of our products;
- the impact weather conditions may have on the sales of certain of our products;
- the effects of climate change and unusual weather activity as well as our ability to respond to future natural disasters and pandemics and to meet our environmental, social and governance goals;
- the cost and effect of unanticipated legal, tax or regulatory proceedings or new laws or regulations (including environmental, public health and consumer protection regulations);
- public perception regarding the safety of products that we manufacture and sell, including the potential for environmental liabilities, product liability claims, litigation and other claims related to products manufactured by us and third parties;
- the impact of existing, pending or threatened litigation, government regulation or other requirements or operating standards applicable to our business;
- the impact of cybersecurity breaches or our actual or perceived failure to protect company and personal data, including our failure to comply with new and increasingly complex global data privacy regulations;
- changes in accounting policies applicable to our business;
- our discretion to adopt, conduct, suspend or discontinue any share repurchase program or conduct any debt repayments, redemptions, repurchases or refinancing transactions (including our discretion to conduct purchases or repurchases, if any, in a variety of manners including open-market purchases, privately negotiated transactions, tender offers, redemptions, or otherwise);
- our ability to utilize net operating loss carry-forwards to offset tax liabilities;
- our ability to separate the Company's Home and Personal Care ("HPC") business and create an independent Global Appliances business on expected terms, and within the anticipated time period, or at all, and to realize the potential benefits of such business;
- our ability to create a pure play consumer products company composed of our Global Pet Care ("GPC") and Home & Garden ("H&G") business and to realize the expected benefits of such creation, and within the anticipated time period, or at all;
- our ability to successfully implement, and realize the benefits of, acquisitions or dispositions and the impact of any such transactions on our financial performance;
- the impact of actions taken by significant shareholders; and
- the unanticipated loss of key members of senior management and the transition of new members of our management teams to their new roles.

Some of the above-mentioned factors are described in further detail in the sections entitled *Risk Factors* in our annual and quarterly reports (including this report), as applicable. You should assume the information appearing in this report is accurate only as of the end of the period covered by this report, or as otherwise specified, as our business, financial condition, results of operations and prospects may have changed since that date. Except as required by applicable law, including the securities laws of the U.S. and the rules and regulations of the United States Securities and Exchange Commission ("SEC"), we undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, to reflect actual results or changes in factors or assumptions affecting such forward-looking statements.

This report is a combined report of Spectrum Brands Holdings, Inc. ("SBH") and SB/RH Holdings, LLC ("SB/RH") (collectively, the "Company"). The notes to the condensed consolidated financial statements that follow include both consolidated SBH and SB/RH Notes, unless otherwise indicated below.

NOTE 1- BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation and Fiscal Period-End

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company and its majority owned subsidiaries in accordance with accounting principles for interim financial information generally accepted in the United States and with the instructions to Form 10-O and Article 10 of Regulation S-X. Accordingly, they do not include all the information and notes necessary for a comprehensive presentation of financial position and results of operations. It is management's opinion, however, that all material adjustments have been made which are necessary for a fair financial statement presentation. For further information, refer to the consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2023

SBH's and SB/RH's fiscal year ends September 30 and the Company reports its results using fiscal quarters whereby each three month quarterly reporting period is approximately thirteen weeks in length and ends on a Sunday. The exceptions are the first quarter, which begins on October 1, and the fourth quarter, which ends on September 30. As a result, the fiscal period end date for the three month periods included within this Quarterly Report for the Company are December 31, 2023 and January 1, 2023, respectively.

Newly Adopted Accounting Standards

In September 2022, the FASB issued ASU 2022-04, Supplier Finance Programs (Subtopic 405-50): Disclosure of Supplier Finance Program Obligations to enhance transparency about the use of supplier finance programs. Under the ASU, the buyer in a supplier finance program is required to disclose information about the key terms of the program, outstanding confirmed amounts as of the end of the period, a roll-forward of such amounts during each annual period, and a description of where in the financial statements outstanding amounts are presented. The amendments in ASU 2022-04 are effective for all entities for fiscal years beginning after December 15, 2022, including interim periods within those financial years, except for the disclosure of roll-forward information, which is effective for fiscal years beginning after December 15, 2023. We adopted the ASU in fiscal 2023, except for the disclosure of roll-forward information, which was adopted during the first quarter of fiscal 2024. The following table summarizes the roll-forward of the supplier finance program for the three month period ended December 31, 2023:

(in millions) Amount Outstanding payment obligations as of September 30, 2023 17.9 Invoices confirmed during the period 18.8 (20.1)Confirmed invoices paid during the period Outstanding payment obligations as of December 31, 2023 16.6

The outstanding payment obligations under the supplier finance program are included in Accounts Payable in the Company's Condensed Statement of Financial Position.

Recently Issued Accounting Standards

In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, which provides updates to qualitative and quantitative reportable segment disclosure requirements, including enhanced disclosures about significant segment expenses and increased interim disclosure requirements, among others. The amendments in ASU 2023-07 are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted, and the amendments should be applied retrospectively. This ASU will be effective for our Form 10-K for fiscal 2025 and our Form 10-Q for the first quarter of fiscal 2026. We are currently evaluating the impact this ASU may have on our consolidated financial statement disclosures.

In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which provides qualitative and quantitative updates to the rate reconciliation and income taxes paid disclosures, among others, in order to enhance the transparency of income tax disclosures, including consistent categories and greater disaggregation of information in the rate reconciliation and disaggregation by jurisdiction of income taxes paid. The amendments in ASU 2023-09 are effective for fiscal years beginning after December 15, 2024, with early adoption permitted. The amendments should be applied prospectively; however, retrospective application is also permitted. This ASU will be effective for our Form 10-K for fiscal 2026. We are currently evaluating the impact this ASU may have on our consolidated financial statement disclosures.

NOTE 2 – DIVESTITURES

The following table summarizes the components of Income from Discontinued Operations, Net of Tax in the Condensed Consolidated Statements of Income for the three month periods ended December 31, 2023 and January 1, 2023:

	Three Month Periods Ended							
(in millions)		ber 31, 2023	Jan	uary 1, 2023				
Income from discontinued operations before income taxes – HHI	\$		\$	45.0				
Income (loss) from discontinued operations before income taxes – Other		10.3		(0.6)

Income from discontinued operations attributable to noncontrolling interest, net of tax		_		0.1				
Income from discontinued operations attributable to controlling interest, net of tax	\$	11.7	\$	19.4				

Interest from corporate debt allocated to discontinued operations in the prior year includes interest expense from Term Loans, which was paid down following the close of the HHI divestiture on June 20, 2023, and interest expense from corporate debt not directly attributable to or related to other operations based on the ratio of net assets of the disposal group held for sale to the consolidated net assets of the Company plus consolidated debt, excluding debt assumed in the transaction, required to be repaid, or directly attributable to other operations of the Company

Hardware and Home Improvement ("HHI")

On September 8, 2021, the Company entered into a definitive Asset and Stock Purchase Agreement (the "Purchase Agreement") with ASSA ABLOY AB ("ASSA") to sell its HHI segment for cash proceeds of \$4.3 billion, subject to customary purchase price adjustments. On June 20, 2023, the Company completed its divestiture of its HHI segment. The Company and ASSA have made customary representations and warranties and have agreed to customary covenants relating to the acquisition. The Company and ASSA have agreed to indemnify each other for losses arising from certain breaches of the Purchase Agreement and for certain other matters. In particular, the Company has agreed to indemnify ASSA for certain liabilities relating to the assets retained by the Company, and ASSA has agreed to indemnify the Company for certain liabilities assumed by ASSA, in each case as described in the Purchase Agreement. The Company and ASSA have agreed to enter into related agreements ancillary to the acquisition that became effective upon the consummation of the acquisition, including a customary transition services agreements ("TSA") and providing for both forward and reverse transition services. The consummation of the acquisition was not subject to any financing condition.

The following table summarizes the components of income from discontinued operations before income taxes associated with the HHI divestiture for the three month period ended January 1, 2023

(in millions)	January 1, 2023
Net sales	\$ 362.9
Cost of goods sold	244.8
Gross profit	118.1
Operating expenses	71.1
Operating income	47.0
Interest expense	0.8
Other non-operating expense, net	1.2
Income from discontinued operations before income taxes	\$ 45.0

Interest expense consists of interest from debt directly attributable to HHI operations that primarily consist of interest from finance leases. The following table presents significant non-cash items and capital expenditures of discontinued operations from the HHI divestiture for the three month period ended January 1, 2023:

(in millions)	 January 1, 2023
Share based compensation	\$ 0.9
Purchases of property, plant and equipment	3.6

(in millions, unaudited)

NOTE 2 - DIVESTITURES (continued)

The Company and ASSA entered into customary TSAs that became effective upon the consummation of the transaction. The TSA supports various shared back office administrative functions, including finance, sales and marketing, information technology, human resources, real estate and supply chain, customer service and procurement; supporting both the transferred HHI operations and the continuing operations of the Company. Charges associated with TSAs are recognized as bundled service costs under a fixed fee structure by the respective service or function and also include one time pass-through charges including warehousing, freight, among others. TSA charges are settled periodically between the Company and ASSA on a net basis. Charges to ASSA are recognized as a reduction of the respective operating expense incurred and charges from ASSA are recognized as an operating expense depending upon the function supported by ASSA. The TSA has an overall expected time period of 12 months following the close of the transaction with variability in expiration dependent upon the completed transition of the respective service or function, and may provide up to 12 additional months for a total duration of up to 24 months. During the three month period ended December 31, 2023 the Company recognized a net income of \$7.9 million associated with TSA charges. Additionally, the Company and ASSA will receive cash and make payments on behalf of the respective counterparty's operations as part of the shared administrative functions, resulting in cash flow being commingled with the operating cash flow of the Company. The Company recognizes a net payable or receivable with ASSA for any outstanding TSA charges and net working capital attributable to commingled cash flow. As of December 31, 2023 and September 30, 2023, the Company had a net receivable of \$7.0 million and \$4.0 million, respectively, included in Other Receivables on the Company's Condensed Consolidated Statement of Financial Position consisting of amounts due from ASSA for cash flow settlement from commingled operations and net TSA charges, including amounts subject to repayment by the Company.

Further, the Company has recognized payables to ASSA for outstanding settlements associated with the purchase agreement, including tax indemnifications for outstanding settlements with tax authorities and uncertain tax benefit obligations, among others. As of December 31, 2023, the Company recognized \$26.9 million, included within Accounts Payable, and \$2.6 million, included within Other Long-Term Liabilities, on the Company's Condensed Consolidated Statements of Financial Position. As of September 30, 2023, the Company recognized \$27.3 million, included within Accounts Payable, and \$2.6 million, included within Other Long-Term Liabilities, on the Company's Consolidated Statements of Financial Position.

Other

Income from discontinued operations before income taxes - other includes incremental pre-tax loss for changes to tax and legal indemnifications and other agreed-upon funding under the acquisition agreements for the sale and divestiture of the Global Batteries & Lighting ("GBL") and Global Auto Care ("GAC") divisions to Energizer Holdings, Inc. ("Energizer") during the year ended September 30, 2019. The Company and Energizer agreed to indemnify each other for losses arising from certain breaches of the acquisition agreement and for certain other matters, in each case as described in the acquisition agreements. Subsequently, effective January 2, 2020, Energizer closed its divestitures of the European based Varta® consumer battery business in the EMEA region to Varta AG and transferred all respective rights and indemnifications attributable to the Varta® consumer battery business provided by the GBL sale to Varta AG. During the three month period ended December 31, 2023, the Company realized gain within the income from discontinued operations from the reversal of certain tax indemnification liabilities following the receipt of audit results and other tax settlements associated with entities transferred as part of the GBL divestiture and for periods prior to the sale for which the Company has indemnified. As of December 31, 2023 and September 30, 2023, the Company recognized \$14.8 million and \$25.3 million, respectively, related to indemnification payables in accordance with the acquisition agreements, primarily attributable to uncertain tax benefit obligations and outstanding settlements with tax authorities that were transferred and indemnified in accordance with the acquisition agreement, including \$14.2 million and \$8.6 million within Other Current Liabilities, respectively, and \$0.6 million and \$16.7 million, within Other Long-Term Liabilities, respectively, on the Company's Condensed Consolidated Statements of Financial Position.

Credit Agreement

On October 19, 2023, SBI and SB/RH entered into the Second Amended and Restated Credit Agreement (the "Credit Agreement"), by and among the Company, SB/RH Holdings, Royal Bank of Canada, as the administrative agent, and the lenders party thereto from time to time. The proceeds of the Credit Agreement will be used for working capital needs and other general corporate purposes. The Credit Agreement refinanced the Company's previous credit agreement and includes certain modified terms from the previous Credit Agreement, including extending the maturity to October 19, 2028, and the reduction of the Revolver Facility to \$500.0 million (with a U.S. dollar tranche and a multicurrency tranche). The Credit Agreement contains customary affirmative and negative covenants, including, but not limited to, restrictions on SBI and its restricted subsidiaries' ability to incur indebtedness, create liens, make investments, pay dividends or make certain other distributions, and merge or consolidate or sell assets, in each case subject to certain expectations set forth in the Credit Agreement.

The aggregate commitment amount with respect to (a) the U.S. dollar tranche of the Revolving Facility is \$400 million and (b) the multi-currency tranche of the Revolving Facility is \$100 million. The commitment fee rate is equal to 0.20% of the unused commitments under the Revolving Facility (which may be increased to a maximum rate equal to 0.40% based on certain total net leverage ratios specified in the Credit Agreement).

All outstanding amounts under the U.S. dollar tranche (if funded in U.S. dollars) will bear interest, at the option of the Company, at a rate per annum equal to (x) Term SOFR, plus a margin ranging between 1.00% to 2.00% per annum (based on certain total net leverage ratios specified in the Credit Agreement) or (y) the Alternate Base Rate (as defined in the Credit Agreement), plus a margin ranging between 0.00% to 1.00% per annum (based on certain total net leverage ratios specified in the Credit Agreement).

The multi-currency tranche (if funded in Euros) will bear interest at a rate per annum equal to the EURIBOR Rate, plus a margin ranging between 1.00% to 2.00% per annum (based on certain total net leverage ratios specified in the Credit Agreement). The multi-currency tranche (if funded in Canadian dollars) will bear interest, at the option of the Company, at a rate per annum equal to (x) Term CORRA (Canadian Overnight Repo Rate Average), plus a margin ranging between 1.00% to 2.00% per annum (based on certain total net leverage ratios specified in the Credit Agreement) or (y) the Canadian Prime Rate, plus a margin ranging between 0.00% to 1.00% per annum (based on certain total net leverage ratios specified in the Credit Agreement). The multicurrency tranche (if funded in Pounds Sterling) will bear interest at a rate per annum equal to the SONIA, plus a margin ranging between 1.00% to 2.00% per annum (based on certain total net leverage ratios specified in the Credit Agreement).

During the three month period ended December 31, 2023, the Company incurred \$4.0 million in fees in connection with the closing of the Credit Agreement, with \$3.2 million in fees capitalized and amortized as debt issuance costs over the term of the Credit Agreement. As of December 31, 2023, the Company's Revolver Facility has a borrowing availability of \$486.9 million, net of outstanding letters of credit of \$13.1 million.

Debt Repurchase

During the three month period ended December 31, 2023, the Company repurchased Senior Notes on the open market, at a discount, which are ultimately retired upon receipt. The repurchase of the Company's debt obligations are treated as an extinguishment, with any realized discount recognized as a gain from debt repurchase on the Company's Condensed Consolidated Statements of Income, net any write-off of related deferred financing costs. For the three month period ended December 31, 2023, the Company repurchased \$179.0 million of outstanding Senior Notes, consisting of \$8.1 million of the 5.00% Senior Notes due October 1, 2029, \$132.8 million of the 5.50% Senior Notes due July 15, 2030, and \$38.1 million of the 3.875% Senior Notes, due March 15, 2031. As a result of repurchasing outstanding debt notes during the three month period ended December 31, 2023, there was a gain of \$4.7 million related to realized gain on the settlement of the obligations recorded, net write-off from associated deferred issuance costs.

NOTE 9 - DERIVATIVES

Derivative financial instruments are used by the Company principally in the management of its foreign currency exchange rates. The Company does not hold or issue derivative financial instruments for trading purposes.

Cash Flow Hedges

The Company periodically enters into forward foreign exchange contracts to hedge a portion of the risk from forecasted foreign currency denominated third party and intercompany sales or payments. These obligations generally require the Company to exchange foreign currencies for Australian Dollars, Canadian Dollars, Euros, Japanese Yen, Mexican Pesos, Pound Sterling, or U.S. Dollars. These foreign exchange contracts are cash flow hedges of fluctuating foreign exchange related to inventory purchases or the sale of product. Until the purchase or sale is recognized, the fair value of the related hedge is recorded in Accumulated Other Comprehensive Income ("AOCI") and as a derivative hedge asset or liability, as applicable. At the time the sale or purchase is recognized, the fair value of the related hedge is reclassified as an adjustment to purchase price variance in Cost of Goods Sold or Net Sales on the Condensed Consolidated Statements of Income. At December 31, 2023, the Company had a series of foreign exchange derivative contracts outstanding through June 2025. The derivative net loss estimated to be reclassified from AOCI into earnings over the next 12 months is \$8.4 million, net of tax. At December 31, 2023 and September 30, 2023, the Company had foreign exchange derivative contracts designated as cash flow hedges with a notional value of \$329.3 million and \$320.2 million, respectively.

The following table summarizes the impact of designated cash flow hedges and the pre-tax gain (loss) recognized in the Condensed Consolidated Statements of Income for the three month periods ended December 31, 2023 and January 1, 2023, respectively:

	Unr	ealized Gain (I Reclass	in OCI Before tion	Reclassified Gain (Loss) to Continuing Operations

Derivative Contracts Not Designated as Hedges for Accounting Purposes

The Company periodically enters into foreign exchange forward contracts to economically hedge a portion of the risk from third party and intercompany payments resulting from existing obligations. These obligations generally require the Company to exchange foreign currencies for, among others, Australian Dollars, Canadian Dollars, Colombian Peso, Euros, Hungarian Forint, Japanese Yen, Mexican Pesos, Pounds Sterling, Singapore Dollar, Swiss Franc, Turkish Lira, or U.S. Dollars. These foreign exchange contracts are fair value hedges of a related liability or asset recorded in the accompanying Condensed Consolidated Statements of Financial Position. The gain or loss on the derivative hedge contracts is recorded in earnings as an offset to the change in value of the related liability or asset at each period end. At December 31, 2023, the Company had a series of forward exchange contracts outstanding through April 2024. At December 31, 2023 and September 30, 2023, the Company had \$709.5 million and \$671.5 million, respectively, of notional value of such foreign exchange derivative contracts outstanding.

The following summarizes the impact of derivative instruments not designated as hedges for accounting purposes on the accompanying Condensed Consolidated Statements of Income for the three month periods ended December 31, 2023 and January 1, 2023, pre-tax:

(in millions)	Line Item	December 31, 2023	January 1, 2023

Fair Value of Derivative Instruments

The fair value of the Company's outstanding derivative contracts recorded in the Condensed Consolidated Statements of Financial Position is as follows:

(in millions)	Line Item	December 31, 2023	September 30, 2023
Derivative Assets			
Foreign exchange contracts – designated as hedge	Other receivables	\$ 0.2	\$ 1.4

Foreign exchange contracts – not designated as hedge	Accounts payable	2.3	0.9
Total Derivative Liabilities		\$ 14.5	\$ 9.0

The Company is exposed to the risk of default by the counterparties with which it transacts and generally does not require collateral or other security to support financial instruments subject to credit risk. The Company monitors counterparty credit risk on an individual basis by periodically assessing each counterparty's credit rating exposure. The maximum loss due to credit risk equals the fair value of the gross asset derivatives that are concentrated with certain domestic and foreign financial institution counterparties. The Company considers these exposures when measuring its credit reserve on its derivative assets, which were not significant as of December 31, 2023.

(in millions, unaudited)

NOTE 9 - DERIVATIVES (continued)

The Company's standard contracts do not contain credit risk related contingent features whereby the Company would be required to post additional cash collateral because of a credit event. However, the Company is typically required to post collateral in the normal course of business to offset its liability positions. As of December 31, 2023 and September 30, 2023, there was no cash collateral outstanding and no posted standby letters of credit related to such liability positions.

Net Investment Hedge

Spectrum Brands, Inc. has €425.0 million aggregate principal amount of 4.00% Notes designated as a non-derivative economic hedge, or net investment hedge, of the translation of the Company's net investments in Euro denominated subsidiaries at the time of issuance. The hedge effectiveness is measured on the beginning balance of the net investment and re-designated every three months. Any gains and losses attributable to the translation of the Euro denominated debt designated as net investment hedge are recognized as a component of foreign currency translation within AOCI, and gains and losses attributable to the translation of the undesignated portion are recognized as foreign currency translation gains or losses within Other Non-Operating Expense (Income). Net gains or losses from the net investment hedge are reclassified from AOCI into earnings upon a liquidation event or deconsolidation of Euro denominated subsidiaries. As of December 31, 2023, the full principal amount was designated as a net investment hedge and considered fully effective. The following summarizes the unrealized gain (loss) from the net investment hedge recognized in Other Comprehensive Income for the three month periods ended December 31, 2023 and January 1, 2023, pre-tax;

Unrealized Gain (Loss) in OCI (in millions)	December 31	2023	January 1, 2023

NOTE 10 - FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company has not changed the valuation techniques used in measuring the fair value of any financial assets and liabilities during the year. The carrying value and estimated fair value of financial instruments as of December 31, 2023 and September 30, 2023 according to the fair value hierarchy are as follows:

Contombou 20 2022

				L	ресеп	iber 31, 20.	23				September 30, 2023									
(in millions)	L	evel 1]	Level 2	I	Level 3	Fair	r Value	_	Carrying Amount		Level 1		Level 2		Level 3	Fa	ir Value		Carrying Amount

Debt		_		1,355.0		_		1,355.0		1,396.6		_		1,418.6		_		1,418.6		1,555.5

The fair value measurements of the Company's debt represent non-active market exchanged traded securities which are valued at quoted input prices that are directly observable or indirectly observable through corroboration with observable market data (Level 2). The Company's derivative instruments are valued on a recurring basis using internal models, which are based on market observable inputs, including both forward and spot prices for currencies, which are generally based on quoted or observed market prices (Level 2). See Note 8 - Debt for additional detail on outstanding debt. See *Note 9 – Derivatives* for additional detail on derivative assets and liabilities.

The carrying values of goodwill, intangible assets and other long-lived assets are tested annually or more frequently if an event occurs that indicates an impairment loss may have been incurred, using fair value measurements with unobservable inputs (Level 3). See Note 7 - Goodwill and Intangible Assets for additional detail.

The carrying values of cash and cash equivalents, short term investments, receivables, accounts payable and short term debt approximate fair value based on the short-term nature of these assets and liabilities.

Share Repurchases

The following summarizes the activity of common stock repurchases for the three month periods ended December 31, 2023 and January 1, 2023:

During the three month period ended December 31, 2023, SBH entered into a \$200.0 million rule 10b5-1 repurchase plan to facilitate daily market share repurchases through November 15, 2024, until the cap is reached or until the plan is terminated. As of December 31, 2023, there has been \$11.1 million repurchased pursuant to the 10b5-1 repurchase plan.

NOTE 11 - SHAREHOLDER'S EQUITY (continued)

On June 20, 2023, the Company entered into an accelerated share repurchase agreement (the "ASR Agreement") with a third-party financial institution to repurchase an aggregate of \$500.0 million of the Company's common stock, par value \$0.01 per share. The Company funded the share repurchases under the ASR Agreement, which are being made pursuant to the Company's new \$1.0 billion share repurchase program, with cash on-hand following the closing of the sale of the Company's HHI segment. Pursuant to the agreement, the Company paid \$500.0 million to the financial institution at inception of the agreement and took delivery of 5.3 million shares, which represented 80% of the total shares the company expected to receive based on the market price at the time of the initial delivery. The transaction was accounted for as an equity transaction. The fair value of the initial shares received of \$400.0 million were recorded as a treasury stock transaction, with the remainder of \$100.0 million recorded as a reduction to additional paid-in capital. Upon initial receipt of the shares, there was an immediate reduction in the weighted average common shares calculation for basic and diluted earnings per share. On November 21, 2023, the Company closed and settled the ASR resulting in an additional delivery of 1.3 million shares, with a fair value of \$83.2 million. The total number of shares repurchased under the ASR program was 6.6 million at an average cost per share of \$75.67, based on the volumeweighted average share price of the Company's common stock during the calculation period of the ASR program, less the applicable contractual discount.

NOTE 12 - SHARE BASED COMPENSATION

The following is a summary of share based compensation expense included in net loss from continuing operations for the three month periods ended December 31, 2023 and January 1, 2023 for SBH and SB/RH, respectively.

(in millions)	December 31, 2023	January 1, 2023			
SBH	\$ 3.9	\$ 3.3			
SB/RH	3.8	3.1			

The Company recognizes share based compensation expense from the issuance of Restricted Stock Units ("RSUs"), primarily under its Long-Term Incentive Plan ("LTIP"). RSUs granted under the LTIP include time-based grants and performance-based grants. The Company regularly issues annual RSU grants under its LTIP during the first quarter of the fiscal year. Compensation cost is based on the fair value of the awards, as determined by the market price of the Company's shares of common stock on the designated grant date and recognized on a straight-line basis over the requisite service period of the awards. Time-based RSU awards provide for either three year cliff vesting or graded vesting depending upon the vesting conditions and forfeitures provided by the grant. Performance-based RSU awards are dependent upon achieving specified financial metrics (adjusted EBITDA, return on adjusted equity, and/or adjusted free cash flow) by the end of the three year vesting period. The Company assesses the probability of achievement of the performance conditions and recognizes expense for the awards based on the probable achievement of such metrics. Additionally, the Company regularly issues individual RSU awards under its equity plan to its Board members and individual employees for recognition, incentive, or retention purposes, when needed which are primarily conditional upon time-based service conditions, valued based on the fair value of the awards as determined by the market price of the Company's share of common stock on the designated grant price date and recognized as a component of share-based compensation on a straight-line basis over the requisite service period of the award. RSUs are subject to forfeiture if employment terminates prior to vesting with forfeitures recognized as they occur. RSUs have dividend equivalents credited to the recipient and are paid only to the extent the RSU vests and the related stock is issued. Shares issued upon exercise of RSUs are sourced from treasury shares when available

The following is a summary of RSU grants issued during the three month period ended December 31, 2023:

NOTE 14 - INCOME TAXES

The effective tax rate for the three month periods ended December 31, 2023 and January 1, 2023, was as follows:

Effective tax rate	December 31, 2023	January 1, 2023
SBH	41.6 %	23.3 %
SB/RH	40.2 %	23.5 %

The estimated annual effective tax rate applied to the three month periods ended December 31, 2023, differs from the US federal statutory rate of 21% principally due to income earned outside the U.S. that is subject to U.S. tax, including the U.S. tax on global intangible low taxed income ("GILTI"), and certain nondeductible expenses. The Company is projecting a U.S. net operating loss ("NOL") for Fiscal 2024, which does not allow it to take advantage of the foreign-derived intangible income deduction or foreign tax credits on its GILTI income. The Company's federal effective tax rate on GILTI was therefore 21%.

As of December 31, 2023 and September 30, 2023, there was \$88.7 million and \$77.8 million of U.S. federal income taxes receivable from its parent company on the SB/RH Condensed Consolidated Statements of Financial Position, calculated as if SB/RH were a separate taxpaver.

NOTE 15 - COMMITMENTS AND CONTINGENCIES

The Company is a defendant in various litigation matters generally arising out of the ordinary course of business. Based on information currently available, the Company does not believe that any additional matters or proceedings presently pending will have a material adverse effect on its results of operations, financial condition, liquidity or cash flows.

Environmental Liability. The Company has realized commitments attributable to environmental remediation activities primarily associated with former manufacturing sites of the Company's HPC segment. In coordination with local and federal regulatory agencies, we have conducted testing on certain sites, which have resulted in the identification of contamination that has been attributed to historical activities at the properties, resulting in the realization of incremental costs to be assumed by the Company towards the remediation of these properties and the recognition of an environmental remediation liability. We have not conducted invasive testing at all sites and locations and have identified an environmental remediation liability to the extent such remediation requirements have been identified and are considered estimable.

As of December 31, 2023, there was an environmental remediation liability of \$5.3 million, with \$1.4 million included in Other Current Liabilities and \$3.9 million included in Other Long-Term Liabilities on the Condensed Consolidated Statements of Financial Position. As of September 30, 2023, there was an environmental remediation liability of \$5.4 million, with \$1.5 million. included in Other Current Liabilities and \$3.9 million included in Other Long-Term Liabilities on the Condensed Consolidated Statements of Financial Position. The Company believes that any additional liability in excess of the amounts provided that may result from resolution of these matters will not have a material adverse effect on the consolidated financial condition, results of operations, or cash flows of the Company

Product Liability. The Company may be named as a defendant in lawsuits involving product liability claims. The Company has recorded and maintains an estimated liability in the amount of management's estimate for aggregate exposure for such liabilities based upon probable loss from loss reports, individual cases, and losses incurred but not reported. As of December 31, 2023 and September 30, 2023, the Company recognized \$2.8 million and \$3.0 million, respectively, in product liability, included in Other Current Liabilities on the Condensed Consolidated Statements of Financial Position. The Company believes that any additional liability in excess of the amounts provided that may result from resolution of these matters will not have a material adverse effect on the consolidated financial condition, results of operations or cash flows of the Company.

Product Warranty. The Company recognizes an estimated liability for standard warranties on certain products when we recognize revenue on the sale of the warranted products. Estimated warranty costs incorporate replacement parts, products and delivery, and are recorded as a cost of goods sold at the time of product shipment based on historical and projected warranty claim rates, claims experience and any additional anticipated future costs on previously sold products. The Company recognized \$0.3 million of warranty accruals as of December 31, 2023 and September 30, 2023, included in Other Current Liabilities on the Condensed Consolidated Statements of Financial Position.

Product Safety Recall. During the year ended September 30, 2022, the HPC segment initiated voluntary product recalls in collaboration with the U.S. Consumer Product Safety Commission ("CPSC"), suspending sales of the affected products and issuing a stop sale with its customers. The Company has assessed the incremental costs attributable to the recall, including the anticipated returns from customers for existing retail inventory, write-off of inventory on hand, and other costs to facilitate the recall such as notification, shipping and handling, rework and destruction of affected products, as needed, and evaluated the probability of redemption. As a result, the Company recognized \$3.8 million and \$6.0 million as of December 31, 2023 and September 30, 2023, respectively, in Other Current Liabilities on the Consolidated Statement of Financial Position associated with the costs for the recalls. Additionally, the Company has indemnification provisions that are contractually provided by third parties for the affected products and as a result the Company has also recognized \$6.1 million and \$7.1 million as of December 31, 2023 and September 30, 2023, respectively, in Other Receivables on the Condensed Consolidated Statement of Financial Position related to recovery from such indemnification provisions.

NOTE 16 - SEGMENT INFORMATION

Net sales relating to the segments for the three month periods ended December 31, 2023 and January 1, 2023, are as follows:

(in millions)	D	ecember 31, 2023	January 1, 2023
GPC	\$	276.9	\$ 277.5
H&G		72.0	71.4

Net sales	\$	692.2	\$ 713.3

The Chief Operating Decision Maker of the Company uses Adjusted EBITDA as the primary operating metric in evaluating the business and making operating decisions. EBITDA is calculated by excluding the Company's income tax expense, interest expense, depreciation expense and amortization expense (from intangible assets) from net income. Adjusted EBITDA further excludes:

- Share based compensation costs consist of costs associated with long-term incentive compensation arrangements that generally consist of non-cash, stock-based compensation. See *Note 12* Share Based Compensation for further details:
- Incremental amounts attributable to strategic transactions, restructuring and optimization initiatives including, but not limited to, the acquisition or divestitures of a business, costs to effect and facilitate a transaction, including such cost to integrate or separate the respective business, development and implementation of strategies to optimize operations, reduce costs, increase revenues, improve profit margins, including recognition of one-time exit or disposal costs. These amounts are excluded from our performance metrics as they are reflective of incremental investment by the Company towards strategic initiatives and business development activities, incremental costs directly attributable to such initiatives and are not considered recurring or reflective of the continuing ongoing operations of the consolidated group or segments;
- Non-cash purchase accounting adjustments recognized in earnings from continuing operations subsequent to an acquisition, including, but not limited to, the costs attributable to the step-up in inventory value, and the incremental value in operating lease assets with below market rent, among others;
- Non-cash gain from the reduction in the contingent consideration liability associated with the Tristar Business acquisition;
- Non-cash asset impairments or write-offs realized and recognized in earnings from continuing operations, including impairments from property, plant and equipment, operating and finance leases, and goodwill and other intangible assets, when applicable;
- Incremental costs recognized by the HPC segment attributable to the realization of product recalls initiated in the prior year. See Note 15 Commitments and Contingencies for further details;
- Incremental reserves for non-recurring litigation or environmental remediation activity attributable to significant and unusual nonrecurring matters with no previous history or precedent;
- Unallocated shared costs associated with discontinued operations from certain shared and center-led administrative functions, through the close of the HHI divestiture on June 20, 2023; excluded from income from discontinued operations as they are not a direct cost of the discontinued business but a result of indirect allocations, including but not limited to, information technology, human resources, finance and accounting, supply chain, and commercial operations. Subsequent to the close of the HHI divestiture, amounts attributable to unallocated shared costs would be mitigated through income from TSAs, subsequent strategic or restructuring initiatives, elimination of extraneous costs, or re-allocations or absorption of existing continuing operations. See *Note 2 Divestitures* for further details;
- Impact from the early settlement of foreign currency cash flow hedges, resulting in assumed losses at the original stated maturities of foreign currency cash flow hedges in our EMEA region that were settled early due to changes in the Company's legal entity organizational structure and forecasted purchasing strategy of HPC finished goods inventory within the region, resulting in excluded gains intended to mitigate costs during the year ending September 30, 2023; and
- . Other adjustments primarily attributable to: (1) key executive severance and other one-time compensatory costs; and (2) non-recurring unusual insurable losses.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Introduction

The following is management's discussion of the financial results, liquidity and other key items related to our performance and should be read in conjunction with the Condensed Consolidated Financial Statements and related notes included in Item 1 of this Quarterly Report on Form 10-Q ("the Quarterly Report") and our Annual Report on Form 10-K for the fiscal year ended September 30, 2023 filed with the SEC on November 21, 2023 (the "2023 Annual Report"). The following discussion may contain forward-looking statements that reflect our plans, estimates, and beliefs and involve risks, uncertainties, and assumptions. Our actual results could differ materially from those discussed in these forward-looking statements. Factors that could cause or contributed these differences include those discussed within "Forward Looking Statements" included elsewhere in this interim report, and in Item 1A. Risk Factors and "Forward-Looking Statements" included within our 2023 Annual Report.

Unless the context indicates otherwise, the term the "Company," "we," "our," or "us" are used to refer to Spectrum Brands Holdings, Inc. and its subsidiaries ("SBH") and SB/RH Holdings, LLC and its subsidiaries ("SB/RH"), collectively.

Non-GAAP Measurements

Our consolidated and segment results contain non-GAAP metrics such as organic net sales, adjusted EBITDA ("Earnings Before Interest, Taxes, Depreciation, Amortization") and adjusted EBITDA margin. While we believe organic net sales and adjusted EBITDA are useful supplemental information, such adjusted results are not intended to replace our financial results in accordance with Accounting Principles Generally Accepted in the United States ("GAAP") and should be read in conjunction with those GAAP results.

Organic Net Sales. We define organic net sales as net sales excluding the effect of changes in foreign currency exchange rates and impact from acquisitions (when applicable). We believe this non-GAAP measure provides useful information to investors because it reflects regional and operating segment performance from our activities without the effect of changes in currency exchange rates and acquisitions. We use organic net sales as one measure to monitor and evaluate our regional and segment performance. Organic growth is calculated by comparing organic net sales to net sales in the prior year. The effect of changes in currency exchange rates is determined by translating the current period net sales using the currency exchange rates that were in effect during the prior comparative period. Net sales are attributed to the geographic regions based on the country of destination. We exclude net sales from acquired businesses in the current year for which there are no comparable sales in the prior year.

The following is a reconciliation of reported net sales to organic net sales for the three month period ended December 31, 2023 compared to net sales for the three month period ended January 1, 2023.

Table of Contents

Adjusted EBITDA and Adjusted EBITDA Margin. Adjusted EBITDA and Adjusted EBITDA Margin are non-GAAP measures used by management, which we believe provide useful information to investors because they reflect ongoing operating performance and trends of our segments, excluding certain non-cash based expenses and/or non-recurring items during each of the comparable periods. They also facilitate comparisons between peer companies since interest, taxes, depreciation, and amortization can differ greatly between organizations as a result of differing capital structures and tax strategies. Adjusted EBITDA is also used for determining compliance with the Company's debt covenants. EBITDA is calculated by excluding the Company's income tax expense, interest expense, depreciation expense and amortization expense (from intangible assets) from net income. Adjusted EBITDA further excludes:

- Share based compensation costs consist of costs associated with long-term incentive compensation arrangements that generally consist of non-cash, stock-based compensation. See *Note 12* Share Based Compensation in the Notes to the Condensed Consolidated Financial Statements, included elsewhere in this Quarterly Report, for further details;
- Incremental amounts attributable to strategic transactions, restructuring and optimization initiatives including, but not limited to, the acquisition or divestitures of a business, costs to effect
 and facilitate a transaction, including such cost to integrate or separate the respective business, development and implementation of strategies to optimize operations, reduce costs, increase
 revenues, improve profit margins, including recognition of one-time exit or disposal costs. These amounts are excluded from our performance metrics as they are reflective of incremental
 investment by the Company towards strategic initiatives and business development activities, incremental costs directly attributable to such initiatives and are not considered recurring or
 reflective of the continuing ongoing operations of the consolidated group or segments;
- Non-cash purchase accounting adjustments recognized in earnings from continuing operations subsequent to an acquisition, including, but not limited to, the costs attributable to the step-up in inventory value and the incremental value in operating lease assets with below market rent, among others;
- · Non-cash gain from the reduction in the contingent consideration liability associated with the Tristar Business acquisition;
- Non-cash asset impairments or write-offs realized and recognized in earnings from continuing operations, including impairments from property, plant and equipment, operating and finance leases, and goodwill and other intangible assets, when applicable;
- Incremental costs recognized by the HPC segment attributable to the realization of product recalls initiated in the prior year. See Note 15 Commitments and Contingencies in Notes to the Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report for further details;
- · Incremental reserves for non-recurring litigation or environmental remediation activity attributable to significant and unusual nonrecurring matters with no previous history or precedent;
- Unallocated shared costs associated with discontinued operations from certain shared and center-led administrative functions, through the close of the HHI divestiture on June 20, 2023; excluded from income from discontinued operations as they are not a direct cost of the discontinued business but a result of indirect allocations, including but not limited to, information technology, human resources, finance and accounting, supply chain, and commercial operations. Subsequent to the close of the HHI divestiture, amounts attributable to unallocated shared costs would be mitigated through income from TSAs, subsequent strategic or restructuring initiatives, elimination of extraneous costs, or re-allocations or absorption of existing continuing operations. See *Note 2 Divestitures* in Notes to the Condensed Consolidated Financial Statements, included elsewhere in this Quarterly Report for further details;
- Impact from the early settlement of foreign currency cash flow hedges, resulting in assumed losses at the original stated maturities of foreign currency cash flow hedges in our EMEA region that were settled early due to changes in the Company's legal entity organizational structure and forecasted purchasing strategy of HPC finished goods inventory within the region, resulting in excluded gains intended to mitigate costs during the year ending September 30, 2023; and
- · Other adjustments primarily attributable to: (1) key executive severance and other one-time compensatory costs; and (2) non-recurring unusual insurable losses.

Adjusted EBITDA margin is calculated as Adjusted EBITDA as a percentage of reported net sales for the respective period and segment.

Overview

The Company is a diversified global branded consumer products company. We manage the businesses in three vertically integrated, product-focused segments: (i) Global Pet Care ("GPC"), (ii) Home and Garden ("H&G"), and (iii) Home and Personal Care ("HPC"). The Company manufactures, markets and/or distributes its products globally in the North America ("NA"), Europe, Middle East & Africa ("EMEA"), Latin America ("LATAM") and Asia-Pacific ("APAC") regions through a variety of trade channels, including retailers, wholesalers and distributors. We enjoy strong name recognition in our regions under our various brands and patented technologies across multiple product categories. Global and geographic strategic initiatives and financial objectives are determined at the corporate level. Each segment is responsible for implementing defined strategic initiatives and achieving certain financial objectives and has a president responsible for sales and marketing initiatives and financial results for all product lines within that segment on a global basis. The segments are supported through center-led shared service operations and enabling functions consisting of finance and accounting, information technology, legal, human resources, supply chain, and commercial operations. The following is an overview of the consolidated business, by segment, summarizing product categories and brands:

Segment	Product Categories	Brands

SB/RH is a wholly owned subsidiary of SBH. Spectrum Brands, Inc. ("SBI"), a wholly-owned subsidiary of SB/RH, incurred certain debt guaranteed by SB/RH and domestic subsidiaries of SBI. See *Note 8 – Debt* included in Notes to the Condensed Consolidated Financial Statements, included elsewhere in this Quarterly Report for more information pertaining to debt. The reportable segments of SB/RH are consistent with the segments of SBH. See *Note 16 – Segment Information* included in Notes to the Condensed Consolidated Financial Statements, included elsewhere in this Quarterly Report for more information pertaining to segments of continuing operations.

Strategic transactions, restructuring and optimization initiatives

The Company periodically evaluates and enters into strategic transactions that may result in the acquisition or divestiture of a business which impacts the comparability of the financial results of the consolidated group and or segments. Additionally, we develop and enter into restructuring and optimization initiatives to improve efficiencies and utilization to reduce costs, increase revenues and improve margins, which may have a significant impact on the comparability of financial results on the condensed consolidated financial statements. These changes and updates are inherently difficult and are made even more difficult by current global economic conditions. Our ability to achieve the anticipated cost savings and other benefits from such operating strategies may be affected by a number of other macro-economic factors, or inflation and increased interest rates, many of which are beyond our control. Moreover, the comparability of financial information may be impacted by incremental amounts attributable to such strategic transactions, restructuring and optimization initiatives. The following strategic decisions have been considered as having a significant impact on the comparability of the financial results on the condensed consolidated financial statements and segment financial information.

- HHI Divestiture On June 20, 2023, the Company completed its divestiture of its HHI segment. See Note 2 Divestitures in the Notes to the Condensed Consolidated Financial Statements, included elsewhere in this Quarterly Report for further detail. The Company has incurred incremental project costs attributable to the divestiture, consisting of legal and professional fees to effect the realization and close of the transaction, separation and transition of systems and processes supporting the divested business and operations of enabling functions within a transition services agreement ("TSA"), plus incremental retention costs for personnel supporting such transition efforts. Incremental costs are expected to be incurred for a transition period of approximately 12-24 months following the close of the transaction.
- HPC Separation Initiatives The Company has initiated projects to facilitate a strategic separation of the Company's HPC segment in the most advantageous way to realize value for both the HPC business as a standalone appliance business either through a spin, merger or sale of the business and the retained GPC and H&G businesses of the consolidated group. Costs are primarily attributable to legal and professional fees incurred to assess opportunities, evaluate transaction considerations, including potential tax and compliance implications to the consolidated group, costs directly attributable to the legal entity separation and transfer of net assets of the HPC operations from the commingled operations of the Company, plus the segregation of systems and processes. Costs attributable to the initiative are expected to be incurred until a transaction is realized or otherwise canceled.

- Tristar Business Acquisition During the year ended September 30, 2021, the Company acquired 100% of the Tristar Business that includes a portfolio of home appliances and cookware products sold under the PowerXL®, Emeril Lagasse®, and Copper Chef® brands. The Company incurred incremental costs to combine and integrate the acquired business with the HPC segment, primarily towards the integration of systems and processes, merger of commercial operations and supply chain, professional fees to consolidate financial records, plus incremental retention costs for personnel supporting the transition and integration efforts.
- Global ERP Transformation During the year ended September 30, 2021, the Company entered into a SAP S/4 HANA ERP transformation project to upgrade and implement our enterprise-wide operating systems to SAP S/4 HANA on a global basis. This is a multi-year project that includes various costs, including software configuration and implementation costs that would be recognized as either capital expenditures or deferred costs in accordance with applicable accounting policies, with certain costs recognized as operating expense associated with project development and project management costs, and professional services engaged towards planning, design and business process review that do not qualify as software configuration and implementation costs. The Company has substantially completed the build phase and initiated a pilot deployment in the prior year with subsequent deployments planned later this year. Costs are anticipated to be incurred through various deployments expected through September 30, 2025.
- Fiscal 2023 and 2022 Restructuring During the years ended September 30, 2023 and 2022, the Company entered into initiatives in response to continuing pressures within the consumer products and retail markets and adjusted strategic initiatives within certain segments, resulting in the realization of of headcount reductions. Substantially all costs associated with the initiatives have been recognized in prior periods and any subsequent amounts are attributable to changes in estimates, headcounts and timing of communication.
- Russia Closing Initiative During the year ended September 30, 2022, the Company initiated the close of its commercial operations in Russia, predominantly supporting the HPC segment. The Company recognized impairment costs on working capital assets such as inventory and receivables that were not considered recoverable due to the restriction and suspension of commercial activity in Russia and has substantially liquidated all assets. Remaining costs primarily consist of administrative cost to dissolve the entity.

In addition to the initiatives discussed above, the Company regularly engages in other initiatives that may incur incremental costs which may not result in a realized transaction or are less significant initiatives and therefore have been separately disclosed and recognized as other project costs. The following is a summary of incremental costs for the three month periods ended December 31, 2023 and January 1, 2023.

Financing Activity

Financing activity during and between comparable periods may have a significant impact on the comparability of financial results on the condensed consolidated financial statements.

- Following the close of the HHI divestiture on June 20, 2023, the Company repaid its outstanding term loan and all outstanding borrowings with the Revolver Facility under the Credit Agreement, and terminated the Incremental Revolving Credit Facility Tranche, along with the remaining aggregate principal of its 5.750% Senior Notes due 2025 in full at the redemptions price and repurchased a portion of its remaining outstanding Senior Notes. During the three month period ended December 31, 2023, the Company repurchased \$179.0 million of its outstanding bonds at a discount, recognizing a gain of \$4.7 million.
- During the three month period ended December 31, 2023, the Company entered into the Second Amended and Restated Credit Agreement (the "Credit Agreement"), refinancing the Company's previous credit agreement, extending maturity to October 19, 2028 and reduced capacity of the Revolver Facility to \$500.0 million.

See Note 8 - Debt in the Notes to the Condensed Consolidated Financial Statements, included elsewhere in this Quarterly Report for additional detail regarding debt and financing activity.

Inflation, Supply Chain and Macroeconomic Environment.

The Company has experienced an inflationary environment on a global basis in the wake of the COVID-19 pandemic, geopolitical instability and supply chain constraints such as labor shortages, increased freight and distribution costs from transportation and logistics, higher commodity costs, rising energy pricing, and foreign currency volatility. Together with labor shortages and higher demand for talent, the current economic environment is driving higher wages. Our ability to meet labor needs, control wage and labor-related costs and minimize labor disruptions will be key to our success of operating our business and executing our business strategies. In response to inflation, our segments have taken pricing actions to address rising costs and foreign currency fluctuations to mitigate impacts to our margins. We can provide no assurance that such mitigation will be available in the future.

While we have seen more stability in the recent economic environment and have not experienced significant disruption in our recent operating results, the risks of future negative impacts due to transportation, logistical or supply constraints remain present, and the Company could continue to experience corresponding incremental costs and margin pressures. We are unable to predict how long the current environment will continue and we expect the economic environment to remain uncertain as we navigate the current geopolitical environment, post-pandemic volatility, labor challenges, changes in supply chain and the overall current economic environment.

The Company does not maintain a significant level of operations within the territories directly affected by the Russia-Ukraine war and the Israel-Hamas war, including the Middle East, and we had previously closed the commercial operations within Russia to reduce risk and exposure, but the economic sanctions and hostilities attributable to such conflicts may negatively impact ours and our customers' financial viability and supply chains, which may negatively impact us, supply chain demands, or the demands or economic viability of our customers in other parts of the world

Consolidated Results of Operations

The following is summarized consolidated results of operations for SBH for the three month periods ended December 31, 2023 and January 1, 2023.

Net Sales for the period ended December 31, 2023	\$	692.2

Gross Profit. Gross profit and margin increased due to cost improvements and inflated inventoried costs that were realized in the prior year, partially offset by lower volumes.

Operating Expenses. Operating expenses decreased due to improved costs and utilization of distribution centers, reduced initiative spending on integration and restructuring, partially offset with incremental investment in brand marketing and advertising.

Interest Expense. Interest expense decreased due to reduced debt borrowings and average borrowing rates following the HHI divestiture in the prior year.

Interest Income. Interest income increased primarily due to interest realized on cash proceeds received from the closing of the HHI divestiture in the prior year.

Gain from debt repurchase. The Company recognized income from the discount realized on the repurchase of debt. See Note 8 - Debt in the Notes to the Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report for additional detail.

Other Non-Operating Expense (Income), Net. Other non-operating income increased due to changes in foreign currency compared to the prior year.

Income Taxes. Our estimated annual effective tax rate was impacted by income earned outside the U.S. that is subject to U.S. tax, including the U.S. tax on global intangible low taxed income and certain nondeductible expenses.

Income From Discontinued Operations. Income or loss attributable to discontinued operations in the prior period primarily reflect the income from the discontinued operations of the HHI segment as the divestiture was completed in the prior year on June 20, 2023. Income attributable to discontinued operations in the current period primarily reflect changes to indemnifications associated with the divested businesses. See Note 2 -Divestitures in the Notes to the Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report for additional detail.

Noncontrolling Interest. The net income attributable to noncontrolling interest reflects the share of the net income of our subsidiaries, which are not wholly-owned, attributable to the accounting interest. Such amount varies in relation to such a subsidiary's net income or loss for the period and the percentage interest not owned by SBH.

SB/RH

The following is summarized consolidated results of operations for SB/RH for the three month periods ended December 31, 2023 and January 1, 2023:

The changes in SB/RH for the three month periods are primarily attributable to the changes in SBH previously discussed.

Segment Financial Data

Global Pet Care

		Three Month Periods Ended					
(in millions, except %)	Ι	December 31, 2023		January 1, 2023		Variance	
Net sales	\$	276.9	\$	277.5	\$	(0.6)	(0.2)%
Operating income		43.9		22.7		21.2	93.4 %
Operating income margin		15.9 %		8.2 %		770 bps	
Adjusted EBITDA	\$	52.7	\$	37.2	\$	15.5	41.7 %
Adjusted EBITDA margin		19.0 %		13.4 %		560 bps	

Net sales decreased primarily from softness in the global aquatics category, lower NA sales from the exit of non-strategic categories such as waste management and lower margin SKUs, and lower foot traffic and sales in the pet specialty channels, partially offset by an increase in dog and cat food and companion animal volume in EMEA and sales growth in e-commerce. Organic net sales decreased \$5.6 million, or 2.0%, excluding a favorable foreign currency impact of \$5.0 million.

Operating income, adjusted EBITDA and margins increased due to lower cost inventory compared to prior year, favorable product and channel mix, and savings from prior year cost reduction initiatives, partially offset by lower volumes and increased advertising investments.

Home & Garden

	Three Month Periods Ended				
(in millions, except %)	December 31, 2023 January 1, 2023		Variance		
Net sales	\$	72.0 \$	71.4	\$ 0.6	0.8 %

Adjusted EBITDA	\$	(0.7) \$	(2.4)	\$ 1.7	(70.8)%
Adjusted EBITDA margin		(1.0)%	(3.4)%	240 bps	

Net sales increased due to higher sales from the Controls product category where late warmer fall weather extended the selling season and and retailer reorder patterns improved compared to the prior year, partially offset by softness in consumer demand for some product lines within the cleaning category.

Operating loss, adjusted EBITDA, and margins improved due to higher sales, manufacturing efficiencies carrying into the fiscal year, positive pricing, and operating cost reductions from cost improvement initiatives, partially offset by additional investments in product innovation and advertising.

Home and Personal Care

	Three Month Periods Ended						
(in millions, except %)	December 31, 2023 January 1, 2023		Variance				
Net sales	\$	343.3	\$	364.4	\$	(21.1)	(5.8)%

Adjusted EBITDA margin		7.8 %		3.6 %		420 bps	
n/m = not meaningful							

Net sales decreased due to reduced placements in NA from the prior year, category decline in small kitchen appliances and exit of certain small kitchen appliance SKUs, mitigated through international sales growth across personal care and small kitchen appliances categories and higher volume through e-commerce, plus opportunistic sales when a competitor filed for bankruptcy.

Organic net sales for the three month period decreased \$27.8 million, or 7.6%, excluding a favorable foreign currency impact of \$6.7 million.

Operating income, Adjusted EBITDA and margins increased due to lower cost inventory compared to the prior year, cost improvement initiatives, realization of operating spend improvements initiated in the prior year, offset by lower volume and negative mix. Operating income was further benefited by lower costs on restructuring and integration initiatives.

Liquidity and Capital Resources

The following is a summary of the SBH and SB/RH cash flows from continuing operations for the three month periods ended December 31, 2023 and January 1, 2023, respectively.

	Sl	ВН	SB/RH				
Three Month Periods Ended (in millions)	December 31, 2023	January 1, 2023	December 31, 2023	January 1, 2023			
Operating activities	\$ 18.1	\$ (57.0)	\$ 1.8	\$ (67.6)			
Investing activities	133.6	(10.0)	133.6	(10.0)			
Financing activities	(439.8)	56.8	(423.4)	67.3			

Cash Flows from Operating Activities

Cash flows provided by SBH's continuing operations increased \$75.1 million, primarily due to the lower operating costs, interest income, reduced receivables factoring, and diminished spending on strategic and restructuring initiatives. Cash flows provided by SB/RH continuing operations increased \$69.4 million primarily due to the items previously discussed above.

Cash Flows from Investing Activities

Cash flows provided by investing activities for SBH continuing operations increased \$143.6 million, primarily from the investment activity of short-term investments. Cash flows provided by investing activities of SB/RH is due to the items previously discussed.

Cash Flows from Financing Activities

Cash flows used by financing activities for continuing operations increased \$496.6 million primarily due to the pay down of debt and treasury share repurchases. Refer to *Note 8 – Debt* in the Notes to the Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report for more information on debt borrowings. See *Note 11 – Shareholders' Equity* in the Notes to the Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report for more information on share repurchase activity. There was no issuance of common stock, other than through the Company's share-based compensation plans and which is recognized as a non-cash financing activity. During the three month periods ended December 31, 2023 and January 1, 2023, SBH made cash dividend payments of \$14.1 million, or \$0.42 per share, and \$17.1 million, or \$0.42 per share, respectively. Cash flows used by financing activity of SB/RH increased \$490.7 million and is highly dependent upon the financing cash flow activities of SBH.

Liquidity Outlook

Our ability to generate cash flow from operating activities coupled with our expected ability to access the credit markets, enables us to execute our growth strategies and return value to our shareholders. Our ability to make principal and interest payments on borrowings under our debt agreements and our ability to fund planned capital expenditures will depend on the ability to generate cash in the future, which, to a certain extent, is subject to general economic, financial, competitive, regulatory and other conditions. We believe the operating cash flow based upon our current and anticipated level of operations, existing cash balances, and availability under our credit facility to be sufficient to meet our operating and capital expenditure requirements for at least the next 12 months. It is not unusual for our business to experience negative operating cash flow during the first quarter of the fiscal year due to the operating calendar with our customers and the seasonality of our working capital. Additionally, we believe the availability under our credit facility and access to capital markets are sufficient to achieve our longer-term strategic plans. As of December 31, 2023, the Company had borrowing availability of \$486.9 million, net of outstanding letters of credit, under our credit facility. Liquidity and capital resources of SB/RH are highly dependent upon the cash flow activities of SBH.

Short-term financing needs primarily consist of working capital requirements, capital spending, periodic principal and interest payments on our long-term debt, and initiatives to support restructuring, integration or other strategic projects. Long-term financing needs depend largely on potential growth opportunities, including acquisition activity and repayment or refinancing of our long-term obligations. Our long-term liquidity may be influenced by our ability to borrow additional funds, renegotiate existing debt, and raise equity under terms that are favorable to us. We also have long-term obligations associated with defined benefit plans with expected minimum required contributions that are not considered significant to the consolidated group.

During the three month period ended December 31, 2023, the Company completed additional repurchases of Senior Notes available for sale on the open market, at a discount. See *Note 8 - Debt* in the Notes to the Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report for further detail. The Company may continue to make repayments on its debt obligations in the future, which may include repayments, redemptions, repurchases, refinancings or exchanges of our outstanding Senior Notes, any of which will be dependent on various factors, including market conditions. Any such repurchases may be affected through a variety of means, including privately negotiated transactions, market transactions, tender offers, redemptions or as otherwise required or permitted by the instruments covering the Company's outstanding indebtedness.

The Company has also continued to repurchase common shares through open market purchases during the three month period ended December 31, 2023. See *Note 11 – Shareholders' Equity* in the Notes to the Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report for further detail. We may, from time to time, seek to repurchase additional shares of our common stock and any further repurchase activity will be dependent on prevailing market conditions, liquidity requirements and other factors. During the three month period ended December 31, 2023, we entered into a \$200.0 million rule 10b5-1 repurchase plan to facilitate daily market share repurchases through November 15, 2024, until the cap is reached or until the plan is terminated. As of December 31, 2023, there has been \$11.1 million repurchased pursuant to the 10b5-1 repurchase plan.

As of December 31, 2023, the Company had a high level of cash reserves, as compared to the prior year, due to the cash proceeds from the HHI divestiture. The Company has temporarily invested a portion of its cash in short-term investments until such expenditures are considered required or necessary to the Company in executing its strategic plans and initiatives, including any further debt reduction and share buybacks.

We maintain a capital structure that we believe provides us with sufficient access to credit markets. When combined with strong levels of cash flow from operations, our capital structure has provided the flexibility necessary to pursue strategic growth opportunities and return value to our shareholders. The Company's access to capital markets and financing costs may depend on the Company's credit ratings. None of the Company's current borrowings are subject to default or acceleration as a result of a downgrading of credit ratings, although a downgrade of the Company's credit ratings could increase fees and interest charges on future borrowings. At December 31, 2023, we were in compliance with all covenants under the Credit Agreement and the indentures governing the 4.00% Notes, due October 1, 2026; the 5.00% Notes, due October 1, 2029; the 5.50% Notes due July 15, 2030; and the 3.875% Notes, due March 15, 2031.

A portion of our cash balance is located outside the U.S. given our international operations. We manage our worldwide cash requirements centrally by reviewing available cash balances across our worldwide group and the cost effectiveness with which this cash can be accessed. We generally repatriate cash from non-U.S. subsidiaries, provided the cost of the repatriation is not considered material. The counterparties that hold our deposits consist of major financial institutions.

The majority of our business is not considered seasonal with a year round selling cycle that is overall consistent during the fiscal year with the exception of our H&G segment. H&G sales typically peak during the first six months of the calendar year (the Company's second and third fiscal quarters) due to customer seasonal purchasing patterns and the timing of promotional activity. This seasonality may require the Company to ship large quantities of products ahead of peak consumer buying season that can impact cash flow demands to meet manufacturing and inventory requirements earlier in the fiscal year, as well as extended credit terms and/or promotional discounts throughout the peak season.

From time to time the Company enters into factoring agreements and customers' supply chain financing arrangements to provide for the sale of certain trade receivables to unrelated third-party financial institutions. The factored receivables are accounted for as a sale without recourse, and the balance of the receivables sold are removed from the Condensed Consolidated Balance Sheet at the time of the sales transaction, with the proceeds received recognized as an operating cash flow. Amounts received from customers for factored receivables are recognized as a payable and remitted to the factor based upon terms of the factoring agreements. The Company has temporarily suspended most of its receivable factoring activity and intends to terminate the remainder when contractually possible during the 2024 fiscal year. Additionally, the Company facilitates a voluntary supply chain financing program to provide suppliers with the opportunity to sell receivables from the Company (the Company's trade payables) to an unrelated third-party financial institution under the sole discretion of the supplier and the participating financial institution. There are no guarantees provided by the Company or its subsidiaries and we do not enter into any agreements with the suppliers regarding their participation. The Company's responsibility is limited to payments on the original terms negotiated with its suppliers, regardless of whether the suppliers sell their receivables to the financial institution and continue to be recognized as accounts payable on the Company's Condensed Consolidated Balance Sheet with cash flow activity recognized as an operating cash flow.

Other than the changes to debt obligations previously noted, there have been no material changes to our debt obligations, lease obligations, employee benefit obligations, or other contractual obligations or commercial commitments previously disclosed. We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Critical Accounting Policies and Estimates

There have been no material changes to our critical accounting estimates as discussed in our 2023 Annual Report.

New Accounting Pronouncements

Guarantor Statements - SB/RH

SBI has issued the 4.00% Notes under the 2026 Indenture, the 5.00% Notes under the 2029 Indenture, the 5.50% Notes under the 2030 Indenture, and the 3.875% Notes under the 2031 Indentures (collectively, the "Notes"). The Notes are unconditionally guaranteed, jointly and severally, on a senior unsecured basis by SB/RH and SBI's domestic subsidiaries. The Notes and the related guarantees rank equally in right of payment with all of SBI and the guarantors' existing and future senior indebtedness and rank senior in right of payment to all of SBI and the guarantors' future indebtedness that expressively provide for its subordination to the Notes and the related guarantees. Non-guarantor subsidiaries primarily consist of SBI's foreign subsidiaries.

The following financial information consists of summarized financial information of the Obligor, presented on a combined basis. The "Obligor" consists of the financial statements of SBI as the debt issuer, SB/RH as a parent guarantor, and the domestic subsidiaries of SBI as subsidiary guarantors. Intercompany balances and transactions between SBI and the guarantors have been eliminated. Investments in non-guarantor subsidiaries and the earnings or losses from those non-guarantor subsidiaries have been excluded.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk Factors

No material change in the Company's market risk has occurred during the three month period ended December 31, 2023. For additional information, refer to *Note 8 - Debt* and *Note 9 - Derivatives* to the Condensed Consolidated Financial Statements included elsewhere in the Quarterly Report and to Part II, Items 7A of the Company's 2023 Annual Report.

Item 4. Controls and Procedures

Spectrum Brands Holdings, Inc.

Evaluation of Disclosure Controls and Procedures. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) pursuant to Rule 13a-15(b) under the Exchange Act as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, SBH's management, including our Chief Executive Officer and Chief Financial Officer, has concluded that, as of such date, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable SEC rules and forms, and is accumulated and communicated to SBH's management, including SBH's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting. There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities and Exchange Act of 1934, as amended) that occurred during the three month period ended December 31, 2023, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls. SBH's management, including our Chief Executive Officer and Chief Financial Officer, does not expect that SBH's disclosure controls and procedures or SBH's internal controls over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within SBH have been detected.

SB/RH Holdings, LLC

Evaluation of Disclosure Controls and Procedures. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) pursuant to Rule 13a-15(b) under the Exchange Act as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, SB/RH's management, including our Chief Executive Officer and Chief Financial Officer, has concluded that, as of such date, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable SEC rules and forms, and is accumulated and communicated to SB/RH's management, including SB/RH's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting. There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities and Exchange Act of 1934, as amended) that occurred during the three month period ended December 31, 2023, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls. SB/RH's management, including our Chief Executive Officer and Chief Financial Officer, does not expect that SB/RH's disclosure controls and procedures or SB/RH's internal controls over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within SB/RH's have been detected.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Litigation

We are a defendant in various litigation matters generally arising in the ordinary course of business. See risk factors below and *Note 15 – Commitments and Contingencies* included elsewhere in this Quarterly Report. Based on information currently available, we do not believe that any matters or proceedings presently pending will have a material adverse effect on our results of operations, financial condition, liquidity or cash flows.

Item 1A. Risk Factors

Information about our risk factors is contained in *Item 1A* of our 2023 Annual Report, and in *Item 1A* of our Quarterly Reports on Form 10-Q for quarterly periods subsequently filed. We believe that as of December 31, 2023, there have been no material changes in our risk factors from those disclosed in *Item 1A* of our 2023 Annual Report, and in *Item 1A* of our Quarterly Reports on Form 10-Q for quarterly periods subsequently filed.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On June 17, 2023, the Board of Directors approved a share repurchase program authorizing the purchase of up to \$1 billion of common stock (the "Maximum Amount"). The share repurchase program will be in effect from June 17, 2023 until the earlier of the Maximum Amount being repurchased thereunder or the suspension, termination or replacement of the program by the Company's Board of Directors. The share repurchase program permits shares to be repurchased in open market or through privately negotiated transactions, including by direct purchases or purchases pursuant to derivative instruments or other transactions (including pursuant to accelerated share repurchase agreements, the writing and settlement of put options and the purchase and exercise of call options). The number of shares to be repurchased, and the timing of any repurchases, will depend on factors such as the share price, economic and market conditions, and corporate and regulatory requirements.

On November 21, 2023, the Company closed and settled the ASR resulting in an additional delivery of 1.3 million shares, with a fair value of \$83.2 million. The total number of shares repurchased under the ASR program was 6.6 million at an average cost per share of \$75.67, based on the volume-weighted average share price of the Company's common stock during the calculation period of the ASR program, less the applicable contractual discount.

During the three month period ended December 31, 2023, SBH entered into a \$200.0 million rule 10b5-1 repurchase plan to facilitate daily market share repurchases through November 15, 2024, until the cap is reached or until the plan is terminated. As of December 31, 2023, there has been \$11.1 million repurchased pursuant to the 10b5-1 repurchase plan.

The following table summarizes the common stock repurchases for the three month period ended December 31, 2023:

	Total Number of Shares Purchased	Average Price Paid Per Share		Total Number of Shares Purchased as Part of Plan	A	pproximate Dollar Value of Shares that may Yet Be Purchased
As of September 30, 2023	5,768,702	\$	_	5,768,702	\$	465,286,924
October 1, 2023 to October 29, 2023	_		_	_		_
October 30,2023 to November 26, 2023	1,264,274		_	1,264,274		465,286,924
